Avis BX72031	1:72	Short S.1 Cockle G-EBKA first metal British flying boat. From Wikipedia... From about 1921, Oswald Short had been thinking about the construction of seaplane floats and flying boat hulls made from metal, specifically duralumin, rather than the traditional wood. The latter always suffered from water retention and did not last well in the tropics. He assembled a team, including C. P. T. Liscomb who had extensive experience with ...
