Cessna's Bird Dog was designed and built to serve in what some might regard as the unglamorous field of Army co-operation at a time when attention was more often focused on a growing array of gleaming silver, nuclear-capable jet fighters and bombers deemed essential for a seemingly inevitable Third World War. Nonetheless the Bird Dog was flown sometimes ...</p>	Aircraft books	Catalogue	£11.99	5+
Warpaint Series WPS137	No Scale	<p>Douglas SBD Dauntless By Kev Darling</p> <p>The Douglas SBD Dauntless earned itself a reputation as a great dive bomber even though its antecedents were very much of pre-war origin. Many nicknames were given to the SBD during its time in frontline service, my own personal favourite is 'slow but deadly'. The original concept was developed by Jack Northrop with some help from Ed Heinemann. The resultant aircraft, the BT-1, had quite...</p>	Aircraft books	Catalogue	£28.00	5+

Warpaint Series WPS87	No Scale	Grumman TBF Avenger. No. 87 in the Warpaint series by Charles Stafrace Without doubt the Grumman Avenger was the most successful torpedo-bomber of the Second World War, and certainly one of the wartime aircraft that could most sustain punishment and yet make it back to base. Built by both Grumman under its TBF designation and by Eastern Division of General Motors under the TBM designation, no less than 9,837 examples were c...	Aircraft books	Catalogue	£14.17	5+
Warpaint Series WPS85	No Scale	Supermarine Scimitar By Tony Buttler AMRAeS. The Supermarine Scimitar was the first swept-wing, twin-engined, single-seat jet aircraft to serve with the Royal Navy and it was also the last all-new fighter type to be designed and built by Supermarine. It evolved from a straight wing design called the Supermarine Type 508, passed through a swept wing development called the Type 525 and then matured into a service aeroplane. When... Warpaint Series WPS84	No Scale	Grumman F6F Hellcat. Even before Pearl Harbor the U.S. Navy realised that it would be hard for its existing fighters, the F2A Buffalo and F4F Wildcat, to deal with Japan's shipboard fighters, especially the A6M Zero. The situation was such that in June 1941 the U.S. Navy placed orders with Grumman's 'Iron Works' for the F6F Hellcat before the first prototype had even flown. It was the right decision for Grumman's new fighter, ...	Aircraft books	Catalogue	£13.75	5+
