Anigrand Craftwork ANIG2105	1:72	Yokosuka H5Y-1 Cherry IJN Type-99 flying boat. In 1934, the Imperial Japanese Navy issued requirement for a twin-engine maritime reconnaissance flying boat, which was intended to match the performance of contemporary four-engine flying boats, while being cheaper to build and easier to maintain. The 11th Naval Air Arsenal at Yokosuka was given the responsibility of design and building two prototypes, these being completed durin...	Aircraft kits (resin)	Catalogue	£117.99	1
Anigrand Craftwork ANIG2088	1:72	Yakovlev Yak-24 Horse. In 1965, the U.S. Army launched the Utility Tactical Transport Aircraft System (UTTAS) program. The initial specification called for an aircraft able to carry a crew of three and eleven troops with the main goal of replacing the Bell UH-1 Huey. Requests for proposals were issued to the industries in 1972. All the designs proposed in response to the specification were required to use two G.E. turbo-shaft ...	Aircraft kits (resin)	Catalogue	£67.99	2
Anigrand Craftwork ANIG4022	1:144	Yakovlev Yak-17 Feather, Cheranovski Ch-26 and Lavochkin La-15 Fantail Also includes BONUS kits of the Antonov An-22 Antei . In late 1950s, the Soviet leadership need a new cargo-lifter aircraft to carry cargoes to the underdeveloped areas of the northern USSR, Siberia and the Far East. Based on the experience acquired building the An-10 and the An-12 which were used as airliners and military transport, the Antonov design bure...	Aircraft kits (resin)	Catalogue	£127.99	2
Anigrand Craftwork ANIG4097	1:144	Xian Y-20 Kunpeng. Three bonus kits included are: Chngdou J-10B fighter, Shenyang J-31 Gyrfalcon stealth fighter and Guizhou Soar Dragon UAV. In 2006, China government launched a Y-XX program for the development of large transport aircraft to meet its military modernization drive by 2015. Two major Chinese aviation companies Shaanxi Aircraft Corporation and Xi'an Aircraft Corporation expressed interest to develop the Y-XX airc...	Aircraft kits (resin)	Catalogue	£97.99	1

Anigrand Craftwork ANIG2016	1:72	XF-109 Tilting jets VTOL supersonic fighter. In 1953, Bell Aircraft Corp developed a VTOL research aircraft, the Model 65 ATV that a pair of turbojets were mounted one each side of the fuselage and could rotated at the aircraft center. The ATV program ended in 1955 and gave Bell experience of the VTOL jet flight, that also led to U.S. Air Force and Navy sponsorship of the project D-188A tilting jets fighter, designated USAF's ...	Aircraft kits (resin)	Catalogue	£57.99	1
Anigrand Craftwork ANIG2084	1:72	XB-48. In 1944, with the success of the German jet bomber Ar.234, USAAF was aware of enemy aviation advances. The war department issued requirement for a new design of the jet bomber which powered either by J35 or J47 engines. The Martin company submitted the Model 223. It was awarded contract for two prototypes which designated XB-48. Other designs in the competition included the North-American XB-45, the Convair XB-46 and th...	Aircraft kits (resin)	Catalogue	£117.99	2
Anigrand Craftwork ANIG3005	1:144	X-Planes VTOL special set X-14A / X-18 / X-19 / X-22A	Aircraft kits (resin)	Catalogue	£77.99	2
Anigrand Craftwork ANIG5008	1:144	X-33, X-34, X-37, X-40A, X-42 X-planes RLV compilation set. In early 1990s, US congress requested to reduce funding for Space Shuttle operations. It is difficult for NASA to reduce costs without affecting safety. Many studies suggest that a Reusable Launch Vehicle (RLV) designed for quick-turnaround operation after each flight will allow for costs reduction. In 1994, NASA launched the RLV programs to demonstrate technologies o...	Space kits (resin)	Catalogue	£87.99	1

Anigrand Craftwork ANIG2029	1:72	Vought XF8U-3 Crusader III. In 1955, with the success of the F8U-1 and -2, Vought started to conceive a more powerful fighter design, the XF8U-3. Although it was similar to the F8Us and carried F8 designation, the aircraft was entirely a new design that installed larger fuselage to accommodate the new powerful J75 engine. The U.S. Navy was interested in the design and signed contract to Vought for five prototypes in competitio...	Aircraft kits (resin)	Catalogue	£57.99	2
Anigrand Craftwork ANIG2050	1:72	Vought XF7U-1 Cutlass. In June 1945, U.S. Navy launched competition for a fighter able to fly at 600 mph high speed. Vought submitted the Model V-346 design which was based from German Arado's tailless fighter documents. Vought's engineers believed that deleting the tailplane would solve aerodynamic problem to increase maximum speed. In June 1946, Navy chose Vought's design as the winner and ordered three prototypes, designate...	Aircraft kits (resin)	Catalogue	£47.99	2
Anigrand Craftwork ANIG4085	1:144	Vickers Windsor Includes these bonus kits Handley-Page HP.75 Manx, Baynes Bat, Vickers Type-432. In 1941, the British Air Ministry issued an requirement for a high-altitude bomber with a pressurised crew compartment. By the time Vickers was already working on a experimental Wellington with pressure cabin nose. They submitted Type 447 proposal to Air Ministry, and was received contract for three Windsor prototypes plus two B....	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG2096	1:72	Vickers VC-10K2 British in-flight refueling tanker	Aircraft kits (resin)	Catalogue	£147.99	1

Anigrand Craftwork ANIG2119	1:72	VFW-Fokker VAK-191B German vector thrust VTOL. In 1962, the West German government launched an requirement for the new ground attack fighter to replace the Fiat G.91. In the meantime NATO had launched a program for VTOL combat aircrafts. The Germans decided to work on the second VTOL fighter. After consideration of various options, the effort focused on the Focke-Wulf Fw.1262 design. This was further developed in a partnership...	Aircraft kits (resin)	Catalogue	£73.80	1
Anigrand Craftwork ANIG4056	1:144	Tupolev Tu-22K Blinder-B. Includes bonus kits of the Mikoyan MiG-9 Fargo, Tupolev Tu-128 Fiddler and Mil Mi-1 Hare. In 1954, the Soviet Council of Ministers issued an ordering the development of a long range supersonic bomber. The Tupolev OKB was put in charge of the development, the Tu-105 configuration was selected. The first Tu-105 prototype made it first flight in 1958. It was proven as an impressive machine. The aircraft ...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG4006	1:144	Tupolev Tu-126 Moss AWACS. Also includes BONUS kits of the Yakovlev Yak-44, Beriev P-42 and Kamov Ka-25. In mid 1950s, the USSR Council of Ministers was spurred by the thread from the U.S. strategic bomber. The possible objective for the Soviet Union at the time was to create the 'eyes' from the upper hemisphere for country's defenses. In 1958, the requirement of the first Soviet Airborne Warning and Control System was identif...	Aircraft kits (resin)	Catalogue	£87.99	1
Anigrand Craftwork ANIG4073	1:144	Tupolev TB-3. The world's first 4-engined monplane bomber. Includes BONUS kits of the Polikarpov I-16, Polikarpov I-5 and Grigorovich I-Z. In 1925, the Soviet Air Force approached the Central Aerohydrodynamic Institute with a requirement for a heavy bomber with total engine output of 1,970hp. Tupolev OKB was selected to start design work in 1926. The mock-up was approved in 1929, and was given military designation TB-3 and civ...	Aircraft kits (resin)	Catalogue	£87.99	1

Anigrand Craftwork ANIG4020	1:144	Sukhoi T-4MS VG Also includes BONUS kits of the MiG Ferret, Kamov Blackghost and Sukhoi T-59 PakFa. The T-4MS bomber competed against Tupolev Tu-160. In 1967, the USAF launched a program of the Rockwell B-1B Lancer supersonic-strategic bomber which has a blended wing body configuration, with variable-sweep wing and four turbofan engines. The USSR prompted to maintain the strategic balance A requirement for the research and dev...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG4094	1:144	Sukhoi T-4 Sotka Soviet supersonic bomber In 1963, the Soviet government issues a requirement for developing an aircraft analogous to the North-American XB-70 Valkyrie. Sukhoi, Tupolev and Yakovlev competed with the T-4, Tu-135 and Yak-33. The Sukhoi design, with its high cruise speed of 3,200 km/h was favored over the other two designs. In 1964, the building of a prototype was authorized. The first T-4, designated '101', fi...	Aircraft kits (resin)	Catalogue	£87.99	1
Anigrand Craftwork ANIG4061	1:144	Sud-Est SE.161 Languedoc Mothership of Leduc 021 ramjet aircraft. Includes BONUS aircraft of the Leduc 021 Ramjet, Nord 1405 Gerfaut, SNCAN 1500 Griffon II and SNECMA C.450 Coleoptere. In 1949, the French military issued requirement for a utility transport that used to accomplish the long-range troop and equipment transport role. Due to the budgetary difficulties, the French military asked the industry-financed 'off-the-shelf'...	Aircraft kits (resin)	Catalogue	£77.99	2
Anigrand Craftwork ANIG3003	1:144	Sound Barrier Breakers set of 6 aircraft. Including Bell X-1, Bell X-2, Douglas X-3 Stiletto, Douglas D558-1 Skystreak, Douglas D558-2 Skyrocket, Douglas D558-3 Skyflash.	Aircraft kits (resin)	Catalogue	£67.99	0
Anigrand Craftwork ANIG4111	1:144	Sikorsky XPBS-1 Patrol bomber compete with Consolidated PB2Y Coronado DOUBLE KIT! Also includes 3 BONUS kits Great Lakes XSG-1 / Pitcairn XOP=1 and Schweizer LNS-1	Aircraft kits (resin)	Catalogue	£87.99	1

Anigrand Craftwork ANIG2137	1:72	Sikorsky XPBS-1 flying boat Patrol bomber . In 1935, the US Navy initiated development of a new patrol bomber larger than the PBY Catalina that would have increased performance and weapon load capability. Consolidated and Sikorsky submitted proposals, and each received order for two prototypes as the XPB2Y-1 and XPBS-1. Both the prototypes first flew in 1937 but the Navy did not have funds at that time to procure the aircraft....	Aircraft kits (resin)	Catalogue	£167.99	2
Anigrand Craftwork ANIG2022	1:72	Sikorsky S-67 In 1964, U.S. Army lunched the AAFSS specification, that calling for an aircraft with a high-speed cruising and long-time hovering capability. Sikorsky submitted the S-66 pusher tail rotor project that competitor with Lockheed AH-56 Cheyenne. The AH-56 won the contest but failed to meet the expectations. For intended to replace the AH-56, Sikorsky self-venture developed a simplified AAFSS that used a number of ex...	Aircraft kits (resin)	Catalogue	£57.99	2
Anigrand Craftwork ANIG2114	1:72	Sikorsky S-42 flying boat. First of the Flying Clippers. In 1931, Igor Sikorsky laid out plans for a new, larger flying boat based on the earlier Sikorsky S-40. At the time Pan Am requested for a flying boat with which to span the Pacific Ocean and open up routes to the Far East. Both the Glenn Martin Company and Sikorsky responded, the latter's design being the S-42. For the first time the airline's publicists could rightfull...	Aircraft kits (resin)	Catalogue	£167.99	1
Anigrand Craftwork ANIG4096	1:144	Sikorsky JR2S-1 / VS-44A flying boat. Bonus kits included are Beechcraft XA-38 Grizzly, Platt-LePage XR-1 and Cornelius	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG2132	1:72	Sikorsky JR2S-1 / VS-44 U.S. largest flying boat at the time	Aircraft kits (resin)	Catalogue	£167.99	2

Anigrand Craftwork ANIG4080	1:144	Short Stirling Mk.I British first 4-engined heavy bomber in WWII. Includes bonus kits of the GAL.56-03 / Miles M.35 Libellula / Baynes Heliplane. In 1936, when the British Air Ministry issued Specification B.12/36 which called for a conventional design which could operate from existing airfields but have a range of not less than 3,000 miles and carry a bomb load in excess of 8,000 lbs. In all 19 aircraft manufacturers were adv...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG4089	1:144	Short Shetland flying boat(bonus kits: G.A.L. Twin Hotspur, Miles Magister with Articulated trailer wing & Martin-Baker MB.5). In 1941, the British Air Ministry issued an requirement for a heavy defensive armament, long range flying boat that intended to replace the Short Sunderland. Saunders-Roe propped S.41 to the Air Ministry, and was asked to combine the project with Short's proposal. The detailed design was performed by ...	Aircraft kits (resin)	Catalogue	£97.99	1
Anigrand Craftwork ANIG4090	1:144	Short SC.5 Belfast RAF Heavy transport. Includes these BONUS kits Scott Aviation Bulldog T.1, Saunders-Roe SR.177 and Supermarine Type 545. In 1959, Royal Air Force issued operational requirement, ASR.371 for a heavy freighter capable of carrying a wide range of military loads over long ranges. Short proposed the SC.5/10 design which was based on company studies from 1950s. The project started with the designation Belfast C.1....	Aircraft kits (resin)	Catalogue	£97.99	1
Anigrand Craftwork ANIG4043	1:144	Short SA.4 Sperrin. Includes BONUS kits of the Gloster Javelin, Hawker P.1127 and Short SB.5. After the end of the second World War, the British military felt there was a need for an independent strategic bombing capability that they should not be reliant upon the U.S. Strategic Air Command. In 1947, Air Ministry issued a request in the form of Specification B.35/46 for an advanced jet bomber capable of carrying a nuclear bomb...	Aircraft kits (resin)	Catalogue	£87.99	2

Anigrand Craftwork ANIG2131	1:72	ShinMaywa US-2 JMSDF STOL Amphibious aircraft	Aircraft kits (resin)	Catalogue	£167.99	1
Anigrand Craftwork ANIG4088	1:144	Shin Maywa US-1A JMSD air-sea rescue amphibian. (Includes these BONUS kits Kayaba Ka-1, Mitsubishi LR-1 and Mitsubishi MU-2S) In 1966, the JMSDF awarded Shin Maywa company a contract to develop a large STOL aircraft for anti-submarine warfare and air-sea rescue work respectively. Two prototypes were built under designation PS-X and flight tests began in October 1967, leading to an order for PS-1 ASW production. The PS-1 had no...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG4065	1:144	Shaanxi KJ-200. Balance Beam PLAAF AWACS testbed. Includes BONUS aircraft of the CAIC WZ-10, Chengdu J-10 and Shenyang J-14. In late 1990s, the PLA Air Force realised that they would lack the modern AEW&C capability, as the Russias would only sell them an export version Beriev A-50, with considerably reduced capability. The only solution left was to build an AEW&C aircraft of their own. In 2001, the Shaanxi Aircraft Corporatio...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG5005	1:144	Salyut Polyus- Orbital Weapons Platform. In 1983, U.S. President Reagan launched a 'Star Wars' program, a shield intended to defend the U.S. against nuclear attack from any place on earth. The Soviet Union immediately accused the United States of seeking to militarily dominate over the others. The USS R. chairman Andropov sought to bring about a treaty banning military weapons from space, and authorized the design of counter-m...	Space kits (resin)	Catalogue	£47.99	2

Anigrand Craftwork ANIG2026	1:72	Rockwell International XFV-12A U.S. Navy VTOL fighter. In 1972, U.S. Navy issued a request for the proposals of the next generation V/STOL close-support fighter on alternate the McDonnell-Douglas AV-8A. It was requested with supersonic speed capability, and enables to operate from small ships. Rockwell International responded with the 'thrust-augmented wing' design. This concept led to Navy's interest and was fully funded for ...	Aircraft kits (resin)	Catalogue	£47.99	1
Anigrand Craftwork ANIG2059	1:72	Republic XF-84H Thunderscreech. In 1950, Wright Air Development Center of the U.S.A.F. had worked with Curtiss and Hamilton to study the concept of new propeller which could approach supersonic speed to a piston-engine fighter. The engineers of the WADC needed a suitable airframe to test the concept, they selected most powerful Allison turboprop engine at the time, and chose to modify the F-84F for this new role. The concept a...	Aircraft kits (resin)	Catalogue	£57.99	2
Anigrand Craftwork ANIG4012	1:144	Republic XF-12 Rainbow. ALSO includes 1 kit each of the Beech F-2A, Hughes XF-11 and Northrop XF-15 Reporter. In 1943, the USAAF had an urgent need to fly photo-reconnaissance missions over the Pacific Theater to identify Japanese positions and movements. However, the airfields were far too distant for the medium-range planes to make the round trip. The request for a new long-range, high altitude reconn. plane capable of the lo...	Aircraft kits (resin)	Catalogue	£77.99	1
Anigrand Craftwork ANIG2057	1:72	Republic XF-12 Rainbow. In 1943, USAAF confronted with the problem of photographic information which collecting from the Pacific theatre while U.S. did not had close airfield in Pacific to be able to use photo-reconnaissance aircraft. So USAAF issued a request for a new long-range / high altitude reconnaissance airplane. In March 1944, Republic proposed to modify its civil model, RC-2 to install with the photographic equipment...	Aircraft kits (resin)	Catalogue	£97.99	0

Anigrand Craftwork ANIG2020	1:72	Republic XF-103. In 1949, U.S. Air Force introduced the new 'weapons system' concept, in which consisting of the air-to-air guided missiles, fire control system and the '1954 interceptor' capable of supersonic flight. The project was designed to intercept the new Soviet intercontinental bombers. In 1951, Air Force announced that the Convair's YF-102A and the Republic's XF-103 were selected for the airframe part of the project. ...	Aircraft kits (resin)	Catalogue	£57.99	2
Anigrand Craftwork ANIG4057	1:144	Raytheon Sentinel R.1. Includes BONUS kits of the Westland Gazelle AH.Mk.1, BAe P.1214 and Fairey Rotodyne. In early 1990s, the U.K. Ministry of Defence launched an Airborne Stand-Off Radar (ASTOR) program that was a ground surveillance system designed to provide information about the deployment and movement of enemy forces. The requirement stands for an existing modern, class-leading, large commercial business jet aircraft wa...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG2117	1:72	Raytheon Sentinel R.1. In early 1990s, the U.K. Ministry of Defence launched an Airborne Stand-Off Radar (ASTOR) program that was a ground surveillance system designed to provide information about the deployment and movement of enemy forces. The requirement stands for an existing modern, class-leading, large commercial business jet aircraft was to be modified to carry the radar and air-to-ground data links. In 1999, the Raythe...	Aircraft kits (resin)	Catalogue	£147.99	2
Anigrand Craftwork ANIG2062	1:72	Platt Le Page XR-1 first U.S.Army helicopter. Aircraft History and Specification. In 1937, two engineers, Laurence LePage and Haviland Platt, traveled to Germany to view the Focke FA-61 tandem-rotor helicopter. There they obtained an option to build the Focke helicopter in U.S., but deteriorating conditions between two governments prevented the deal from going through. After returning to the U.S., they formed Platt LePage Airc...	Aircraft kits (resin)	Catalogue	£37.99	0

Anigrand Craftwork ANIG4071	1:144	Piasecki YH-16 Transporter. World largest helicopter in 1950s. Includes bonus kits of the Kaman HH-43B Huskie, McDonnell XV-1 Convertiplane and Doak VZ-4DA. In 1946, the U.S. Army Air Corp issued an requirement for a wide-ranging helicopter capable of rescuing downed strategic bomber crews. The aircraft also had military application as a large troop and cargo transport. Piasecki submitted the Model PV-15, and was awarded a con...	Aircraft kits (resin)	Catalogue	£77.99	2
Anigrand Craftwork ANIG3006	1:144	Penetration fighter special set Lockheed XF-90Y / North-American F-93A / North-American XF-88A plus Convair X-6 conversion	Aircraft kits (resin)	Catalogue	£57.99	2
Anigrand Craftwork ANIG2012	1:72	Orbital Sciences X-34 RLV	Aircraft kits (resin)	Catalogue	£47.99	1
Anigrand Craftwork ANIG5001	1:144	NPO Energia Rocket. In 1974, after failure of the N-1 Lunar rocket, the Soviet military preferred a new family of modular following the loss of space race to America. In 1976, the Ministers of the USSR launched the program of the reusable spacecraft system. The former OKB-1 bureau was restructured to NPO Energia enterprise that in charge of the program development. The U.S. shuttle design was studied by Soviet rocket scientist...	Space kits (resin)	Catalogue	£97.99	0
Anigrand Craftwork ANIG2023	1:72	Northrop YF-17 Cobra. In 1965, Northrop began a fighter project, P-530 with a new concept, a pair of Leading Edge Root Extension (LERX) for the main wings that tapered into the fuselage for exceeding attack angles. The shape of LERX looks like a cobra head so it was named Cobra. In 1972, USAF launched the Lightweight Fighter program that called for a small, lightweight, low cost, air superiority day fighter designed for a high...	Aircraft kits (resin)	Catalogue	£57.99	2

Anigrand Craftwork ANIG2127	1:72	Northrop YC-125B Raider 3-engined STOL utility transport. As World War II wound down, Northrop looked for a low-cost transport aircraft to serve under-developed airfields for emerging commercial routes. To meet that need, Northrop designed and built the N-23 Pioneer transport at its own expense. In 1948, the U.S. Air Force expressed interest in an aircraft of the same configuration and placed an order with Northrop for 23 airc...	Aircraft kits (resin)	Catalogue	£117.99	2
Anigrand Craftwork ANIG4009	1:144	Northrop YB-49 flying wing. Also includes BONUS kits of the McDonnell FH-1, Douglas XB-43 and Bell XP-83. In 1941, as Britain fall to German invasion was seemed imminent, the USAAC opened up a competition for a very long-range bomber that would have to reach Europe directly from North America. Northrop and Consolidated were selected for the development of two prototypes that designated the XB-35 and XB-36. Numerous technical p...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG2021	1:72	Northrop YA-9A. In 1970s, U.S. Air Force launched the A-X requirement that a new designed ground-attack aircraft could provided stable platform for bombing accuracy over the battlefield area. It was also required to be durable for flight close to the ground, in range of enemy guns. The under-wing pylons could carry almost all arms in Air Force inventory. Northrop submitted the YA-9A to the Air Force in competition with the Fai...	Aircraft kits (resin)	Catalogue	£57.99	1
Anigrand Craftwork ANIG4013	1:144	Northrop XB-35 Flying wing. Also includes BONUS kits of the Northrop N-9M, Lockheed XP-58 Chain Lightning and Douglas XB-42 Mixmaster. In 1941, as Britain fall to German invasion was seemed imminent, the USAAC opened up a competition for a very long-range bomber that would have to reach Europe directly from North America. Northrop and Consolidated were asked to provide the proposals. Northrop submitted his flying wing bomber d...	Aircraft kits (resin)	Catalogue	£87.99	1

Anigrand Craftwork ANIG2015	1:72	Northrop M2-F2 First powered Lifting body. In 1957, NASA had investigated the problems associated with re-entry from space of missile nose cone. Engineers conceived the lifting body idea that by modifying a cone shape, aerodynamic lift could be produced to fly back from space rather than plunge to the earth. This study led to the design known as the M-2, a 'M'odified half-cone, rounded on bottom and flat on top, with twin tail...	Aircraft kits (resin)	Catalogue	£34.99	1
Anigrand Craftwork ANIG2014	1:72	Northrop HL-10 The fastest Lifting body. In 1962, NASA started a program to build a lightweight, powerless lifting body, the M2-F1 as a prototype to study the wingless vehicle concept. It was designed to demonstrate the ability of pilots to maneuver in the atmosphere, and safety landing after reentry from space. With the success of the M2-F1 program, which led to NASA's development of two heavyweight, powered lifting bodies, t...	Aircraft kits (resin)	Catalogue	£34.99	2
Anigrand Craftwork ANIG2039	1:72	North-American YF-93A. In 1946, USAF recognized all the early jet fighters were lacked sufficient range to escort bombers to the target. So the proposal for a penetration fighter were requested. In 1947, North-American responded with the proposal for a revised version of North-American F-86A, which the fuselage size was enlarged for bigger internal fuel tanks to increase its range. The extra fuel increased weight so the more p...	Aircraft kits (resin)	Catalogue	£47.99	3
Anigrand Craftwork ANIG2018	1:72	North-American XF-108 Rapier Mach 3 escort fighter for XB-70. In 1955, USAF launched the program of LRIX (Long-Range Interceptor Experiment), that the fighter was to be capable of Mach 3 performance and could destroy attacking Soviet bombers over the poles before they could get near U.S. territory. As it was also to be the escort fighter for the XB-70 bomber that was built by North-American Aviation, the company also was issu...	Aircraft kits (resin)	Catalogue	£57.99	0

Anigrand Craftswork ANIG4007	1:144	North-American XB-70 Valkyrie. Also includes BONUS kits of the XF-108 Rapier, North-American X-15C Delta and L-17 Navion. In 1955, the USAF issued requirement for a strategic bomber with the Boeing B-52's range/payload and the Convair B-58's supersonic speed to replace these bombers by 1965. Competition between Boeing and North-American for the contract occurred during the design phase. In 1958, the North-American's exotic des...	Aircraft kits (resin)	Catalogue	£97.99	2
Anigrand Craftswork ANIG2068	1:72	North-American XB-28. In 1939, the USAAF issued requirement for a new medium bomber which could operate at high-altitude to avoid attack from ground fire. Martin and North-American responded with the requirement, Martin submitted the Model 182 which was redesigned from the Martin B-26 Marauder, and North-American proposed NA-63 which was based from the North-American B-25 Mitchell. In 1940, North-American's design was chosen t...	Aircraft kits (resin)	Catalogue	£57.99	1
Anigrand Craftswork ANIG2090	1:72	North-American XA2J-1 Super Savage. Most powerful savage bomber. In 1945, after the first atomic bomb was dropped successfully, the U.S. Navy launched a program for a carrier-based attack aircraft that would be capable of delivering a atomic bomb. The North-American AJ Savage won a Phase 1 competition, a turbo-prop powered aircraft being phase 2, and the phase 3 was a larger jet-powered attack aircraft. In 1947, the Navy reque...	Aircraft kits (resin)	Catalogue	£97.99	2
Anigrand Craftswork ANIG2099	1:72	North-American T-39A Sabreliner. In mid-1950s, the USAF launched a Utility Trainer Experimental (UTX) programme for a small, multi-engine jet that would function primarily as a crew trainer. The North-American offered its in house project, model NA-265 to the USAF. Its leading edge slats, swept-back wing and tail gave it a strong resemblance to the F-86 Sabre Jet and the F-100 Super Sabre. The design received the name Sabrelin... Anigrand Craftwork ANIG4053	1:144	Nakajima G8N-1 Renzan. Includes bonus kits of the Kokusai Ta-go, Rikugan Ki-202 Shusui-kai, Nakajima Ki-115 Tsurugi, and Kawasaki Ki-119. In 1943, the Imperial Japan Navy issued a long-range land-based attack bomber specification. Nakajima aircraft company was selected to design a four-engine bomber capable of meeting an specification for a plane with maximum speed of 590 km/h able to carry 4,000 kg bomb-load. Nakajima's desig...	Aircraft kits (resin)	Catalogue	£77.99	1
Anigrand Craftwork ANIG4037	1:144	Nakajima G5N2 Shinzan. Also includes BONUS kits of the Aichi E16A1 Zuiun, Yokosuka R2Y1 Keiun and Kawasaki Ki-78. In 1938, with success of the Mitsubishi G4M attack bomber, the Japanese Navy issued requirement for an advanced four-engine heavy bomber which could operate more long-range and bomb load than the G4M. Nakajima and Kawanishi were selected to create two new bombers, one was the land-based airplane and the other was f...	Aircraft kits (resin)	Catalogue	£87.99	1
Anigrand Craftwork ANIG4010	1:144	Nakajima G10N1 Fukagu. Also includes BONUS kits of the Mansyu Ki-98, Kawanishi Baika, Mizuno Shinryu. In 1943, as the war situation worsened, Nakajima sought to develop a very long-range, super heavy bomber which could be able to carry 11000 lbs bomb load into U.S. air-field, where they could mount bombing raids against targets along America's western seaboard. The project in-house named 'Z-bomber'. The project impressed the Ja...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG2125	1:72	Nakajima B4N-1 Experimental 9-Shi Carrier Attack Aircraft. In April 1932, the Imperial Japanese Navy issued requirement for the new carrier attack aircraft, which was intended to replace the Mitsubishi B2M1 type-89. Both the Mitsubishi and Nakajima were received order for the new aircraft development. Nakajima submitted the specification with tha B4N, that used a biplane configuation that had upper gull wings and lower inver...	Aircraft kits (resin)	Catalogue	£57.99	2

Anigrand Craftwork ANIG4002	1:144	Myasishchev M-50 Bounder. Also includes BONUS kits of the Sukhoi Su-15, Lavochkin La-250 and MiG Ye-152! In 1955, the USSR Council of Ministers was spurred by the thread from the U.S. XB-70 bomber which was designed for Mach-3, but this was considered an impossible objective for the Soviet Union at that time. As the Myasishchev OKB was striving to develop the huge 3M subsonic bomber, this design bureau was assigned the additio...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG2073	1:72	Myasishchev M-17 Stratosfera. In May 1960, when the Lockheed U-2 spy-plane was shot down over Ukraine, American started to use alternative unmanned balloon that prevailing winds would carry it across Soviet territory. The Soviet PVO (air defense forces) found this tread difficult to counter, and ordered Myasishchev to be head of a secret tasked with a high-altitude balloon destroyer aircraft. The result was the M-17 Mystic-A. ...	Aircraft kits (resin)	Catalogue	£67.99	2
Anigrand Craftwork ANIG4042	1:144	Myasishchev 3MD Bison-B/C. Also includes BONUS kits of the Yakovlev Yak-27K Flashlight, Yakovlev Yak-28-64 and Tysbin LL-3. Aircraft History and Specification. In 1946, the USAF launched a program of the Boeing B-52 Stratofortress long-range bomber capable of carrying out the strategic mission. The USSR prompted to maintain the strategic balance. A requirement for the development of an intercontinental bomber with a strike cap...	Aircraft kits (resin)	Catalogue	£97.99	1
Anigrand Craftwork ANIG5003	1:144	Molniya Buran OK-GLI space shuttle. In 1974, after failure of the N-1 Lunar rocket, the Soviet military preferred a new family of modular following the loss of space race to America. In 1976, the Ministers of the USSR launched the program of the reusable spacecraft system. The former OKB-1 bureau was restructured to NPO Energia enterprise that in charge of the program development. The U.S. shuttle design was studied by Soviet ...	Space kits (resin)	Catalogue	£77.99	1

Anigrand Craftwork ANIG5004	1:144	Molniya Buran OK-92 space shuttle. In 1972, U.S. President Nixon approved a program to develop a reusable Space Shuttle system. In the USSR, the space shuttle was viewed first of all as a carrier of nuclear weapons. The Soviet military convinced that U.S. planned to use the shuttle for a pre-emptive nuclear strike on Russia. Therefore the USSR needed an analogous capability to maintain the strategic balance. In 1976, the Minis...	Space kits (resin)	Catalogue	£77.99	2
Anigrand Craftwork ANIG5002	1:144	Molniya Buran OK-1.01 space shuttle. In 1974, after failure of the N-1 Lunar rocket, the Soviet military preferred a new family of modular following the loss of space race to America. In 1976, the Ministers of the USSR launched the program of the reusable spacecraft system. The former OKB-1 bureau was restructured to NPO Energia enterprise that in charge of the program development. The U.S. shuttle design was studied by Soviet...	Space kits (resin)	Catalogue	£77.99	1
Anigrand Craftwork ANIG2108	1:72	Mizuno Jinryu Anti-tank suicide glider. In early 1945, Japan's geography were able to predict the Allied invasion plans accurately and thus planned an all-out defensive plan of home islands accordingly. The Imperial Japanese Navy issued requirement for a rocket-powered anti-tank suicide glider to Naval Air Arsenal. The glider was designed to be launched from coastal air bases and caves, and fly towards the Allies LCA or M4 She...	Aircraft kits (resin)	Catalogue	£37.99	2
Anigrand Craftwork ANIG2101	1:72	Mitsubishi ATD-X Shinshin Japan stealth fighter demonstrator. At the beginning of the 21st century, JASDF seeking to replace its aging fleet of fighter aircraft, began making overtures to the United States on the topic of purchasing several F-22 Raptors for their own forces. However the U.S. Congress had banned the exporting of the aircraft in order to safeguard secrets of the aircraft's technology such as its extensive use of ...	Aircraft kits (resin)	Catalogue	£77.99	1

Anigrand Craftwork ANIG2123	1:72	Miles M.30 X Minor. In 1939, F.G. Miles began the design of a large transport aeroplane, the X.2, intended to have the maximum degree of aerodynamic cleanness obtainable. To this end the fuselage was made wide and shallow so that it merged almost imperceptibly into the wing which was fitted with large root fillets. Miles submitted it to the Air Ministry. However the Air Ministry were not interested in civil aircraft or in rese...	Aircraft kits (resin)	Catalogue	£57.99	2
Anigrand Craftwork ANIG4078	1:144	Mil V-12 Homer. World's largest helicopter. Includes bonus kits of the YaK-24 Horse / Kamov Ka-60 / Kamov A-16. In 1961, the Soviet Air Force issued an requirement for a heavy lift helicopter able to carry major missile components. It would be worked together with the Antonov An-22 airlifter that would carry remote missile launch site. Mil OKB was selected for a tandem-rotor layout development. The bureau claimed a twin side-b...	Aircraft kits (resin)	Catalogue	£97.99	2
Anigrand Craftwork ANIG2004	1:72	Mikoyan MiG-105-11 EPOS Soviet Space-plane / Lifting body project. In 1964, ex-USSR defense unit issued a 5-years military space plan, that included the 'Spiral' space-plane project. The MiG 105-11 EPOS was planned as an experimental manned spacecraft, that was under development in Mikoyan bureau as a part of the Spiral program. The Spiral space system consisted of an orbital spacecraft (MiG 105) with a rocket booster and supe...	Aircraft kits (resin)	Catalogue	£34.99	2
Anigrand Craftwork ANIG4077	1:144	Messerschmitt Me-321 Gigant. Heavy glider for invasion of Britain & Russia. Includes bonus kits of the Gotha Go.50 / Lippisch Glider-bomber / He.111Z Zwilling / DFS DFS-230. In 1940, due to the preparations for the invasion of Britain and Russia, the Luftwaffe's Transport Command realized a need for a larger capacity cargo and troop carrying aircraft. It was decided that the most cost-effective solution was to use giant glider...	Aircraft kits (resin)	Catalogue	£97.99	2

Anigrand Craftwork ANIG4064	1:144	Messerschmitt Me-264V-1. The Amerika-bomber which competed with the Junkers Ju-390. Includes BONUS aircraft of the Blohm-und-Voss Bv-155, Blohm-und-Voss Bv.P.209-02, Blohm-und-Voss Bv.P.215 and Gotha Go.P.60A. In early 1942, the Luftwaffe issued competition calling for a long range bomber capable of striking targets in the U.S. east coast, primarily New York city. Messerschmitt took parts in a competition with its Me.264 desig...	Aircraft kits (resin)	Catalogue	£77.99	2
Anigrand Craftwork ANIG4008	1:144	Messerschmitt Me P.08-01 Flying-wing bomber target to New York. Also includes BONUS kits of the Me.329, Bv.P.208-03, Li.P.13B and Ar.E.555-01. In May 1942, as the war situation worsened, the design bureaus of Focke-Wulf, Junkers and Messerschmitt all sought to develop a long-range bombers which could be able to carry 4000 kg bomb load into U.S. air-field, where they could mount bombing raids against targets along America's eas...	Aircraft kits (resin)	Catalogue	£77.99	2
Anigrand Craftwork ANIG2094	1:72	McDonnell-Douglas KC-10A Extender. . During the Vietnam War and Arab-Israeli War, the U.S.A.F. C-141 and C-5 were forced to carry a fraction of their maximum payload on direct flights from the continental United States to Asia and Israel. The strategic airlift operations demonstrated the necessity of adequate air-refueling capability. The U.S. Department of Defense concluded that a more advanced tanker was needed. The 'Advance...	Aircraft kits (resin)	Catalogue	£187.99	2
Anigrand Craftwork ANIG2126	1:72	McDonnell YC-15 STOL prototype to form the C-17 Globemaster. In 1972, the U.S. Air Force issued the Advanced STOL transport program for a new medium airlifter that capable of operations into battle zones with short, temporary airfields. Two proposals were accepted for construction as the Boeing YC-14 and McDonnell-Douglas YC-15 prototypes. McDonnell Douglas's design incorporated a supercritical wing, the result of NASA researc...	Aircraft kits (resin)	Catalogue	£167.99	2

Anigrand Craftwork ANIG4105	1:144	McDonnell YC-15 Includes these BONUS kits North-American T-30 Sabreliner, Northrop YC-125 Raider and Rockwell XFV-12A)	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG2056	1:72	McDonnell XP-67 Moonbat. In 1939, USAAF issued a specification 'R-40' for a long-range twin-engine fighter. McDonnell submitted company's first design but was rejected. McDonnell modified the design and resubmitted to USAAF in 1941. This time it was accepted and received order for two prototypes, designated XP-67. The XP-67 was created an unusual looking that the fuselage and the engine nacelles were merged together in order t...	Aircraft kits (resin)	Catalogue	£47.99	0
Anigrand Craftwork ANIG2058	1:72	McDonnell XF-88A Voodoo. In 1945, USAAF recognized all the early jet fighters lacked sufficient range to escort bombers to the target. So proposals for a penetration fighter were requested. In 1947, McDonnell submitted its larger-sized McDonnell F2H proposal, and was chosen for two prototypes, designated XF-88 Voodoo. The other designs entered the competition were the Lockheed XF-90 and the North-American YF-93A. In 1948, the ...	Aircraft kits (resin)	Catalogue	£57.99	2
Anigrand Craftwork ANIG2130	1:72	McDonnell Model 119 UCX prototype compete with C-140 Jetstar. In 1956, the USAF issued requirement for a utility transport that used to accomplish the combat flight inspection and navigation mission. Due to the budget cuts, the Air Force asked the industry-financed "off-the-shelf" prototypes. McDonnell submitted company's Model 119 for a small, 4-jets, multi-purpose, utility airplane. It will be capable of going anywhere in th...	Aircraft kits (resin)	Catalogue	£97.99	2

Anigrand Craftwork ANIG2079	1:72	McDonnell Blue Gemini. In 1961, after success of the Mercury spacecraft launch, NASA contracted McDonnell to design a larger two-man Mercury mark II for longer periods in orbit. This bigger spacecraft which soon renamed Gemini that require a larger launch vehicle, a Titan II missile. The Titan II was Air Force missile and naturally required close coordination with the Air Force. The Air Force was interested in the Gemini progr...	Aircraft kits (resin)	Catalogue	£37.99	2
Anigrand Craftwork ANIG5006	1:72	Martin-Boeing XMS-1. Original Dyna-Soar configuration. In 1945, millions of German military documents were confiscated by USAAF. One of the concept was the Sanger aerospace bomber. During post-war years, Bell was selected for further studies on rocket-bomber which named BoMi. In 1956, the USAF channeled Bell's development to a reconnaissance, bombardment vehicle. A competition for a prototype was opened. In 1959, Boeing won th...	Space kits (resin)	Catalogue	£97.99	1
Anigrand Craftwork ANIG2061	1:72	Martin XP6M-1/P6M-2 SeaMaster flying boat. In 1951, U.S. Navy issued request to industry for a large seaplane that would be capable of long-range nuclear strike and mining to block Soviet Navy to reach open sea. Martin submitted its Model 275 proposal to the Navy, and was awarded contract for two prototypes which designated XP6M-1 SeaMaster. The first prototype was rolled out in secret in 1954, and made its first flight in 195...	Aircraft kits (resin)	Catalogue	£117.99	2
Anigrand Craftwork ANIG2035	1:72	Martin XB-51. In early 1946, USAAF issued requirement for a new attack bomber in succession to the Douglas A-26. Martin Company proposed its design and won the competition with designation, XA-45. Soon later USAAF revised its requirement for better close-support bombing. Martin accepted the new requirement and was received contract for two prototypes, redesignated XB-51. The first XB-51 made its first flight on Oct 1949. It be... Anigrand Craftwork ANIG4035	1:144	Martin PBM-3/5 Mariner Also includes BONUS kits of the Douglas XTB2D-1 Skypirate, Curtiss SB2C-3 Helldiver and Grumman F7F-1 Tigercat. In 1937, the U.S. Navy wanted a new patrol flying boat used as a replacement for the Consolidated PBY Catalina. Martin proposed the gull-winged Model-162 to the Navy. It was given the PBM-1 Mariner prototype order. The XPBM-1 prototype first flew in 1939. The PBM-2 was an experimental long-rang...	Aircraft kits (resin)	Catalogue	£77.99	2
Anigrand Craftwork ANIG4049	1:144	Martin P4M-1/-2 Mercator. Includes BONUS kits of Grumman XTB2F-1, Douglas XSB2D-1 Destroyer, Brewster SB2S-4 Buccaneer In 1944, the U.S. Navy experienced that faster land-planes like the Lockheed PV-1 Ventura and Consolidated PB4Y Privateer had been useful as well in the war, this need not be limited to flying boats only. The requirement for a much more formidable ocean patrol land-plane, with longer range, better sensors, and...	Aircraft kits (resin)	Catalogue	£77.99	1
Anigrand Craftwork ANIG2113	1:72	Martin M-130 China Clipper. U.S. Navy transport for the Manhattan Project. In early 1930s, Pan Am requested for a flying boat with capability that could fly across the ocean. Martin's bid of Model-130 was successful. In 1934, three M-130 were built as Martin Ocean Transports, but to the public they were all referred as the China Clipper. On November 1935, the China Clipper flew the first trans-Pacific airmail route. Their rang...	Aircraft kits (resin)	Catalogue	£167.99	2
Anigrand Craftwork ANIG3004	1:144	Luftwaffe Bomber-B special set: Focke-Wulf Fw-191, Junkers Ju-288, Arado Ar-340 and Dornier Do-317. In 1939, the RLM issued a development contract for an aircraft under the designation Bomber-'B'. This was to be a twin-engined medium bomber capable of carrying a 4,000 kg bomb load to any point in the British Isles. The power would be supplied by the under developed Junkers Jumo 9-222 radial engine. The specification was aimed ...	Aircraft kits (resin)	Catalogue	£97.99	2

Anigrand Craftwork ANIG2097	1:72	Lockheed XST Have Blue. Stepping stone of the F-117A Nighthawk. In 1975, the USAF and DARPA initiated a XST program to study the concept of a very low observable military aircraft. DARPA penned the requirements for the ATA designs that was a small aircraft about the size of F-15. Northrop and Lockheed were asked to design a prototype. In early 1977, Lockheed won the contract for the construction of two 60-percent scale flyable...	Aircraft kits (resin)	Catalogue	£47.99	0
Anigrand Craftwork ANIG4060	1:144	Lockheed XR6V-1 / R6O-1. Includes BONUS aircraft of the McDonnell-Douglas A-12 Avenger II, Northrop-Grumman MQ-8 Fire Scout, and Boeing Diamond wing. In 1942, the U.S. Navy called for a large transport aircraft to improve upon the navy's fleet of flying boats. In the meantime, Lockheed and PanAm began a Model 189 airliner study as a greater / double-decker version of the 049 Constellation. A year later in 1943, the Navy involv... Anigrand Craftwork ANIG2001	1:72	Lippisch Li.P.13B Luft '46 Ramjet concept. In 1944, Germany started to face the fuel shortage problem. Dr. Alexander Lippisch and his design team had proceeding with the P.13a design in Austria and he though to try 'coal' to be a new kind of fuel for his ramjet fighter concepts. A hexagonal shape combustion chamber was selected for coal filling from a center top but it was no way to fit into the P.13a fuselage. So the differen...	Aircraft kits (resin)	Catalogue	£24.99	2
Anigrand Craftwork ANIG2028	1:72	Ling-Temco-Vought XC-142 Largest tilting-wing VTOL transport prototype. In 1950's, many V/STOL aircraft were built and evaluated by the US Military services. Few of the concepts were deemed to have the operational capabilities. Base on these prototypes experiences, the new V/STOL assault transport program was announced. In 1961, a request for proposal of the large cargo airplane was released by Tri-services. Ling-Temco-Vought ...	Aircraft kits (resin)	Catalogue	£67.99	2
Anigrand Craftwork ANIG5007	1:144	Lifting bodies set. In 1957, NASA had investigated the problems associated with re-entry from space of missile nose cone. Engineers conceived the lifting body idea that by modifying a cone shape, aerodynamic lift could be produced to fly back from space rather than plunge to the earth. This study led to the design known as the M-2, a 'M'odified half-cone, rounded on bottom and flat on top, with twin tail-fins. This configurati...	Space kits (resin)	Catalogue	£57.99	2

Anigrand Craftwork ANIG2135	1:72	Kugisho MXY-6 Test-bed of the Kyushu J7W Shinden. In 1943, the IJN issued an 18-shi specification for a new interceptor. Kyushu submitted a design with canard foreplanes, the J7W Shinden. Despite some opposition to the design, the IJN was intrigued enough to accept the proposal. However, the design had to show promise and the canard configuration needed to be proven before the IJN would authorise further development. Therefore...	Aircraft kits (resin)	Catalogue	£67.99	2
Anigrand Craftwork ANIG2121	1:72	Kawasaki OH-1 Ninja JGSDF OH-X programme. In late 1980s, the Japan Ground Self-Defence Force (JGSDF) launched the OH-X programme to acquire a new indigenous observation helicopter to replace its Kawasaki license-built OH-6Ds. Design proposals for the OH-X programme were presented by Kawasaki, Fuji and Mitsubishi. Kawasaki's design was selected. The first prototype XOH-1 completed its maiden flight in 1996. Kawasaki handed over...	Aircraft kits (resin)	Catalogue	£77.99	2
Anigrand Craftwork ANIG4019	1:144	Kawasaki Ki-9 1 Also includes BONUS kits of the Kayaba Katsuodori, Nakajima Ki-201 and Kawasaki Ki-108. In early 1943, as the war situation worsened, Nakajima had to develop a very long-range Fugaku bomber which could be able to mount bombing raids against targets along America's western seaboard. The Fugaku project impressed the Japanese Army and Navy. However, it was deemed too complex, and would not be available in service....	Aircraft kits (resin)	Catalogue	£87.99	1
Anigrand Craftwork ANIG4067	1:144	Kawanishi H11K-1 Soku. Includes BONUS kits of the Kawasaki Ki-88, Kyushu MXY-6 and Yokosuka MXY-7 Ohka. Japan ultimate flying boat in WWII. In early 1944, due to the fuel and raw materials shortage in Japan at that stage in the war, the IJN desired to have a large transport seaplane capable of carry a significant cargo load which would fly from Japan to Sumatra and then return. The success of the H6K and H8K flying boats in th...	Aircraft kits (resin)	Catalogue	£97.99	2

Anigrand Craftwork ANIG4047	1:144	Kalinin K-7. Includes BONUS kits of the Kalinin K-12, Moskalyov Sam-7 and Cheranovsky BiCh-17. In 1925, Kalinin made a series of single-engined aircraft characterized by having a quasi-elliptical wing that made his OKB famous in the USSR. In 1930, he designed a gigantic transport aircraft, the K-7 which has seating capacity of 60 or 20 tonnes of cargo. The K-7 design caused attention from the Ministry of Aviation Industry. It ...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG4039	1:144	Junkers Ju-390V-1 Amerika-bomber reached US east coast. Also includes BONUS kits of the Payen Pa.22, Blohm-und-Voss Pv P.175, Henschel Hs-87 and Horton Ho-VII-V4. In 1942, the Luftwaffe issued competition calling for a long range bomber capable of striking targets in the U.S. east coast, primarily New York city. Junkers took parts in a competition with its Ju 390 design. Other competitors were Heinkel with He 277, Messerschmit...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG4052	1:144	Junkers Ju-352V-2 Herkules. Includes bonus kits of the Flettner FI-265, Blohm-und-Voss Bv-141B, Messerschmitt Me-609, Focke-Wulf Fw-226 Flitzer. In 1942, due to the worsening war situation and a critical shortage of metal materials, Reich Air Ministry instructed Junkers to redesign the structure of the Junkers Ju.252 transport airplane. Junkers proposed the Ju.352 Herkules, itself developed in an attempt to replace the Ju.52/3...	Aircraft kits (resin)	Catalogue	£77.99	1
Anigrand Craftwork ANIG4074	1:144	Junkers Ju-322 Mammut heavy glider. (Includes 4 BONUS kits of Kalkert Ka 430V1, Blohm-und-Voss Bv-40, DFS 331 and Lipisch DM 1. In 1940, due to the preparations for the invasion of Britain and Russia, the Luftwaffe's Transport Command realized a need for a larger capacity cargo and troop carrying aircraft. It was decided that the most cost-effective solution was to use giant gliders. Accordingly, the Luftwaffe issued a require...	Aircraft kits (resin)	Catalogue	£97.99	2

Anigrand Craftwork ANIG4045	1:144	Junkers EF-132 . Final jet bomber captured by Russian. Includes BONUS kits of the Lippisch Li.P12 Entwurf III, Focke-Wulf P.0310251-1006 Victoria tail, Messerschmitt Me.P1106 and Heinkel WESPE. In the autumn of 1944 Reichsmarschall Goring instructed the Junkers and Messerschmitt works to design and produce the very long-range bombers which would be capable of delivering 4000kg bomb load, at high speeds and over extreme distanc...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG2120	1:72	JASDF ATD-X Shinshin Stealth fighter flying test-bed. 26 resin parts, Clear-resin canopy, decal, Span 126 mm x Length 196 mm. At the beginning of the 21st century, JASDF seeking to replace its aging fleet of fighter aircraft, began making overtures to the United States on the topic of purchasing several F-22 Raptors for their own forces. However the U.S. Congress had banned the exporting of the aircraft in order to safeguard s...	Aircraft kits (resin)	Catalogue	£77.99	1
Anigrand Craftwork ANIG3009	1:144	Japanese experimental defensive airplanes special set vol.2 - Imperial Japan Army. Includes Mitsubishi Ki-109 / Rikugun Ki-93 / Kawasaki Ki-103B Randy / Mitsubishi Ki-167 Mitsubishi Ki-109 - A heavy fighter that was to be used against the American B-29s at high altitude, but the Allied began making night raids at low altitude. The Ki-109 was no longer needed. Kawasaki Ki-102b - A ground-attack fighter that similar to prot...	Aircraft kits (resin)	Catalogue	£87.99	1
Anigrand Craftwork ANIG2092	1:72	Ilyushin IL-22 In early 1946, the first Soviet designed jet engine, TR-1 was completed. The USSR Council of Ministers issued requirement for a new bomber that would use four of TR-1 jet engines. Ilyushin and Sokhoi were called to begin work on the jet bomber design that resulted in the IL-22 and Sukhoi Su-10. After the Myasishchev OKB was closed in 1945 several key design staff were transferred to Ilyushin and they became invo...	Aircraft kits (resin)	Catalogue	£97.99	2

Anigrand Craftwork ANIG2107	1:72	Ilyushin Il-102 Ground attacker competed with Su-25. In 1967, the Soviet Air Forces drew up a specification for a armoured ground attack aircraft. While Sukhoi designed an all-new single seat Su-25, Ilyushin proposed a modified version of their Il-40 of 1953 under the designation Il-42, which unlike the Sukhoi was a two seat aircraft with a remotely controlled rear gun turret. The design was rejected by the Soviet Air Forces, ...	Aircraft kits (resin)	Catalogue	£77.99	2
Anigrand Craftwork ANIG2066	1:72	I.A.I. Lavi. In the end of 1970s, the Israel Defense Force perceived that the IAI Kfir was no solution for future growth. So it announced the requirement for a new combat aircraft which powered by a much more powerful engine and compactable to carry more armament. In February 1980, IAI launched the Lavi program. The development phase was to involve five prototypes, the B-01/-02 was two-seats trainer, and B-03/-04/-05 were sing...	Aircraft kits (resin)	Catalogue	£47.99	3
Anigrand Craftwork ANIG2041	1:72	Hughes XF-11. In 1939, Hughes Aircraft used a special wooden structure which strength comparable to steel for a proposal of bomber design, the model D-2. The project interested USAAF because metal material was becoming a scare by the war. In 1942, the D-2 was ordered under an attack aircraft designation XA-37. Later it was considered as a night fighter XP-73. In 1943, the wooden D-2 prototype was lost by fire accident in Hughe...	Aircraft kits (resin)	Catalogue	£67.99	0
Anigrand Craftwork ANIG4018	1:144	Horten Ho-XVIII Also includes BONUS kits of the Junkers EF 130, Blohm-und-Voss Bv-P.217, Lippisch Li P.04-106 and Messerschmitt Me P.334. In early 1930s, Horten brothers had interested in the flying-wing design as a method of improving the performance of airplane. Several Horten flying-wing gliders were built and tested. In 1943, Reichsmarschall Goring issued a request for the design proposals to produce a fighter/bomber that ...	Aircraft kits (resin)	Catalogue	£77.99	2

Anigrand Craftwork ANIG2011	1:72	Hiller X-18 Tilt-wing VTOL cargo transport experiment. During early 1955, Hiller Aircraft designed a large, tilt-wing VTOL aircraft as an in-house study. In 1956, U.S. Air Force interested this concept and assigned contract to Hiller for the development of a VTOL cargo transport. The test bed was designated X-18. In order to speed the construction process and to conserve available Air Force funding, the X-18 was built from exi...	Aircraft kits (resin)	Catalogue	£57.99	2
Anigrand Craftwork ANIG2087	1:72	Handley-Page HP.115. In the late 1950s, the United Kingdom, France, United States and Soviet Union were considering developing supersonic transport. BAC was largely funded by British government on the design called the Type 223. The T.223 was a thin-winged delta shape aircraft but the cost for starting construction was so high. British government required BAC to proceed with small-scale delta wing prototype testing before any ...	Aircraft kits (resin)	Catalogue	£47.99	3
Anigrand Craftwork ANIG4083	1:144	Handley-Page Halifax B Mk.I. Includes BONUS kits of the GAL.56/04, Miles M.30 X-Minor and Avro Rota. Main RAF heavy bomber other than Lancaster. In 1936, when the British Air Ministry issued Specification B.12/36 which called for a conventional design which could operate from existing airfields but have a range of not less than 3,000 miles and carry a bomb load in excess of 8,000 lbs. In all 19 aircraft manufacturers were advi...	Aircraft kits (resin)	Catalogue	£87.99	1
Anigrand Craftwork ANIG2106	1:72	Grumman XP-50 Fore-runner of the F7F Tigercat. In 1939, the USAAC issued a contest for a twin-engine heavy interceptor aircraft. Two proposals were accepted for prototypes construction as the Lockheed XP-49 and the Grumman XP-50. The XP-50 was based on the Navy XF5F-1 Skyrocket carrier plane modified for a tricycle landing gear. This twin-motored land plane was of particular interest to the Army because of its air-cooled engin...	Aircraft kits (resin)	Catalogue	£47.99	1

Anigrand Craftwork ANIG2133	1:72	Great Lakes XSG-1 Unorthodox biplane to replace the O2U Corsair. In early 1930â€™s, the U.S. Navy issued requirement for a small scout amphibian as a replacement of the conventional floatplanes. Three companies, Great Lakes, Loening and Sikorsky received contacts from BuAer under a specification calling for a single-engine amphibian stressed for catapult launches and with wing floated, small enough to fit into the hanger space a...	Aircraft kits (resin)	Catalogue	£47.99	2
Anigrand Craftwork ANIG3010	1:144	German experimental VTOL aircrafts special set Do.29 / VAK.191B / VJ.101C / Do.31. In late 1950's, the West Germany issued a requirement for the VTOL fighter, attack and transport aircrafts programme. The idea being that in case of Soviet attack, the VTOL would support dispersal of combat aircraft assets to small and easy concealed operation base. A renewed interest in STOL and VTOL aircraft led to a re-evaluation of Focke's c...	Aircraft kits (resin)	Catalogue	£87.99	1
Anigrand Craftwork ANIG2009	1:72	General-Dynamics A-12 Avenger II Naval stealth attacker project. In mid-1980's, U.S. Navy awarded the ATA (Advanced Tactical Aircraft) program as a replacement for the Grumman A-6 Intruder. The key improvement over the existing aircraft was stealth ability. In 1988, General-Dynamics / McDonnell-Douglas were selected to develop a subsonic twin jet carrier-based ATA for attack at night or in bad weather, the A-12 Avenger II. Th... Anigrand Craftwork ANIG2112	1:72	Fairchild XC-120 Packplane Modified C-119 with detachable cargo pod. In 1948, the USAF requested Fairchild to develop a new transport airplane based on the C-119 Flying Boxcar, as the cargo or troops carriers with a better and quicker way to deliver cargo, or an air-deliverable field hospital. Fairchild submitted a proposal for the conversion of the C-119B from the production line into a new designed machine. The aircraft reta...	Aircraft kits (resin)	Catalogue	£147.99	2
Anigrand Craftwork ANIG2118	1:72	Fairchild C-82A Packet World's first twin-boom transport aircraft. During outbreak of War World II, the mainstay of cargo freight operations in USAAF was catered by the C-47 Dakota, C-46 Commando and the C-54 Skymaster but they were built as pre-war civil passenger aircraft, not as dedicated cargo aircraft. In 1941, USAAF issued requirement for a large capacity cargo transport aircraft. Fairchild responded with a submission by...	Aircraft kits (resin)	Catalogue	£147.99	1

Anigrand Craftwork ANIG4082	1:144	Fairchild C-82A Packet (U.S. twin-boom transport) plus bonus kits: Stout XC-65 Skycar, Vultee XP-68 Tornado, General Airborne XGC-16	Aircraft kits (resin)	Catalogue	£77.99	2
Anigrand Craftwork ANIG3008	1:144	Experimental defensive airplanes special set vol.1 - Imperial Japan Navy. Includes Mitsubishi Q2M1 Taiyo / Aichi S1A1 Denko / Nakajima J5N1 Tenrai / Kawanishi J6K1 Jinpu. Aichi S1A-1 Denko - A night-fighter was requested by Navy that intended to replace the Nakajima J1N Gekko, filling the role of a radar-equipped airplane to combat the American B-29 raids. Two prototypes were constructed in 1945, but were destroyed durin...	Aircraft kits (resin)	Catalogue	£87.99	1
Anigrand Craftwork ANIG2110	1:72	EWR VJ-101C German tilt-jet VTOL. In the late 1950's, the West Germany issued an requirement for the VTOL fighter, attack and transport aircrafts programme. The idea being that in case of Soviet attack, the VTOL would support dispersal of combat aircraft assets to small and easy concealed operation base. Heinkel submitted the configuration of the tiltjet fighter He.231, attracting interest of the German government. In 1959, He...	Aircraft kits (resin)	Catalogue	£77.99	2
Anigrand Craftwork ANIG4034	1:144	EMW A-9/A-10/A-11 Luftwaffe ballistic missile. Also includes BONUS kits of the Fieseler Fi-166, Blohm-und-Voss MGRP, Skoda-Kauba P.14 and Bachem Ba-349 Natter. In 1939, following successes with the A-4 rocket, the von Braun team began thinking of a much more advanced aggregate series as the range of the A-4 was rather limited. One of the projects was the A-9/A-10 which was designed to carry a one-metric-ton payload from bases ...	Aircraft kits (resin)	Catalogue	£87.99	2

Anigrand Craftwork ANIG2075	1:72	Douglas XF6D-1 Missiler. In 1957, the U.S. Navy began to plan a new concept for airborne fleet defense. A large subsonic interceptor with a powerful radar was to be equipped with very long range high speed air-to-air missiles to shoot down approaching Soviet strike aircraft and bombers. In 1958, Bendix and Grumman were selected as contractors for the AAM-N-10 Eagle missile. A year later the Douglas XF6D-1 Missiler design was...	Aircraft kits (resin)	Catalogue	£67.99	1
Anigrand Craftwork ANIG2032	1:72	Douglas XB-43 Jet-Master. In 1944, as successes of the Reich's jet fighter and bomber projects, the U.S.A.A.F. defined requirement for the first American jet bomber development urgently. Douglas proposed to modify the XB-42 airframe, then repaired the piston engines with a pair of turbojets for saving time and cost. The contract for two prototypes that designated XB-43 was signed, 50 productions program were also planned in the...	Aircraft kits (resin)	Catalogue	£57.99	1
Anigrand Craftwork ANIG2031	1:72	Douglas XB-42 Mix-Master. In 1943, the Douglas began a company funded study to a high speed bomber design which was not liked the traditional wing mounting engines. It was an unusual idea to install the two engines within the fuselage driving a pair of propellers mounted at the tail. That can leaving the wing and fuselage clean and free of aerodynamics-reducing protrusions. Douglas submitted an unsolicited proposal to U.S.A.A....	Aircraft kits (resin)	Catalogue	£57.99	0
Anigrand Craftwork ANIG4031	1:144	Douglas XB-31 Raidmaster. Also includes BONUS kits of the Vultee XP-54 Swoose Goose, Curtiss-Wright XP-55 Ascender and Northrop XP-56 Black Bullet. 4 (YES FOUR) superb resin kits!!! In 1939, the USAAC issued a requirement for a new medium bomber which could operate at high-altitude to avoid attack from ground fire. Preliminary designs were submitted by Martin and North-American. The Martin XB-33 was redesigned from the B-26 ...	Aircraft kits (resin)	Catalogue	£97.99	2

Anigrand Craftwork ANIG4021	1:144	Douglas XB-19 / XB-19A Hemi-sphere Defender. Also includes BONUS kits of the Tucker XP-57, Bell XP-59A Airecomet and Curtiss XP-60C. In 1935, the USAAC launched a top secret project for a super long-range 'Project-D' bomber. The Army issued contracts for preliminary design to two aircraft companies, which were designated as Douglas XBLR-2 and Sikorsky XBLR-3. In 1936, the mockups of two designs were inspected. The Douglas prop...	Aircraft kits (resin)	Catalogue	£117.99	2
Anigrand Craftwork ANIG2048	1:72	Douglas XA2D-1 Skyshark. In June 1945, with the success of the high performance AD Skyraider, Navy asked Douglas to design a new version of the AD with turboprop power, and selected Allison to design the power-plant. Allison proposed to install a pair of nose mounted engines to drive a pair of contra-rotating propellers. In cruise flight, one of the engine and prop could be shut down to increase its flight range. In 1947, two ...	Aircraft kits (resin)	Catalogue	£47.99	2
Anigrand Craftwork ANIG2053	1:72	Douglas D-558-3 Skyflash. In early 1950's, a several high-speed flight researches were being proceeded by different agencies, the NACA's hypersonic research, the Air Force's Project 1226 and the Navy's D-558 program. In 1954, Langley team of NACA gathered those similar researches from military services and aerospace industries, combined with the Air Force and Navy to launch the new 'Project 1226' competition. As Navy liked to ...	Aircraft kits (resin)	Catalogue	£37.99	1
Anigrand Craftwork ANIG4017	1:144	Douglas C-74 GlobeMaster Also includes BONUS kits of the Republic F-84B Thunderjet, Sikorsky R-5A, Vought XF5U-1 Flying Pancake. In early 1942, the USAAF realized the need for an aircraft that could support the demands of a global logistics network with larger payload and transoceanic range. The Douglas Co. also saw the need and began development towards an extended version of the DC-4 / C-54. In June 1942, a contract was awar...	Aircraft kits (resin)	Catalogue	£87.99	2

Anigrand Craftwork ANIG2104	1:72	Douglas C-133 Cargomaster Ballistic missiles carrier.	Aircraft kits (resin)	Catalogue	£187.99	2
Anigrand Craftwork ANIG2067	1:72	Douglas C-124A/C Globemaster. After the end of the second World War, the USAAF found the C-74 Globemaster was a very capable and useful aircraft, and began to consider acquiring an improved version proposed by Douglas. It used the same wing, tail and engines from the C-74, but featured a new and enlarged fuselage, as well as clamshell doors in the nose. The result was the Douglas C-124 Globemaster II. The YDouglas C-124 protot...	Aircraft kits (resin)	Catalogue	£147.99	1
Anigrand Craftwork ANIG4011	1:144	Dornier-Stratosphären Haunebu II. Also includes BONUS kits of the BMW Flugelrad I, BMW Flugelrad II, Sack As-6, Vril RFZ-5 Haunebu I. In 1935, a mysterious group, Vril was found in Northwest Germany that was to develop a series of flying disc. The disc crafts were to be installed by a revolutionary electro-magnetic-gravitic engine that powered the rotating disc wing or internal disc blade. In 1939, A several of prototypes were... Anigrand Craftwork ANIG2005	1:72	Curtiss-Wright X-19 Tilt-propellers VTOL experiment. In 1958, Curtiss-Wright started the four passengers VTOL commercial aircraft program without any government support. It was designed with a tilting propeller at each wing tip that a nacelle could rotate in pointing vertical for take off and landing and pointing horizontal for cruise. When the two prototypes were almost completed, Curtiss-Wright decided to offer these two air...	Aircraft kits (resin)	Catalogue	£37.99	2

Anigrand Craftwork ANIG2136	1:72	Curtiss YC-76 Caravan Experimental all-wood transport. In 1941, the U.S. War Department required for a twin-engine transport comparable in performance to the Douglas C-47, to be constructed of "non-strategic materials". At the time, U.S. government feared that the thousands of new aircraft needed for the war effort might create shortages of aluminum alloys. The Curtiss proposal, submitted as the Model CW-27, utilizing wood con...	Aircraft kits (resin)	Catalogue	£147.99	2
Anigrand Craftwork ANIG2076	1:72	Curtiss XP-62. In January 1941, the USAAC issued a requirement for a new heavily-armed, high-performance interceptor fighter. The fighter was to be powered by the under developed 2300 hp Wright 'Duplex Cyclone' twin-row radial engine. This was the heaviest engine to be mounted in a fighter, and was the same engine to power the Boeing B-29A Superfortress bomber. Built-in armament was comprised no less than eight 20-mm cannon. C...	Aircraft kits (resin)	Catalogue	£47.99	1
Anigrand Craftwork ANIG2064	1:72	Curtiss XP-60C / XP-60EIn 1940, Curtiss proposed a initial design for the eventual replacement for the Curtiss P-40 to the USAAF. It was inverted the continental engine to the Curtiss P-40 fuselage and tail assembly. This proposal was accepted and a contract for two prototypes, XP-53 was issued. At the end of 1940, USAAF modified order to install the XP-53 with British Merlin engine. The prototype was redesignated XP-60. Due t...	Aircraft kits (resin)	Catalogue	£47.99	1
Anigrand Craftwork ANIG4003	1:144	Convair YB-60. ALSO includes 1 kit each of the XF-90, XF-88A Voodoo and YF-93 Sabre. In 1941, the USAAF begun the Convair B-36 program since it might need to conduct strategic bombing of Europe from USA. However, the XB-36 maiden flight did not occur until 1946. Still the USAAF wanted a much faster jet bomber, a specification for a new bomber to replace the B-36 was issued. Boeing responded with the Model 462, and was received...	Aircraft kits (resin)	Catalogue	£97.99	1

Anigrand Craftwork ANIG4051	1:144	Convair XP5Y-1 Tradewind Includes bonus kits of the Convair XF2Y-1 Sea Dart, Douglas F3D-2 Skyknight, Douglas XA2D-1 Skyshark. In 1944, the U.S. Navy asked the industries to enter a design competition for a 105,000 pound patrol boat powered by four radials. At the end of the war, two Blohm-und-Voss Bv.222 flying boats were captured by U.S. forces. Convair acquired one for evaluation at Naval Air Station, the intensive studies ...	Aircraft kits (resin)	Catalogue	£87.99	0
Anigrand Craftwork ANIG2049	1:72	Convair XP-81 In 1943, USAAF issued a specification for a long-range jet powered fighter which could be flight across the Pacific to escort bombers to Japan. Consolidated Vultee Aircraft (Convair) responded with the new design which was powered by a combination of the turboprop and jet engine units, while Navy was also working on the same theory with the Curtiss XF15C-1 and the Ryan FR-1. The configuration was a nose mounted t...	Aircraft kits (resin)	Catalogue	£47.99	1
Anigrand Craftwork ANIG4048	1:144	Convair XB-48. Includes BONUS kits of the Martin XB-51, Curtiss XP-87 Blackhawk, Lockheed F-94C Starfire. In 1944, with the success of the German jet bomber Ar.234, USAAF was aware of enemy aviation advances. The war department issued requirement for a new design of the jet bomber which powered either by J35 or J47 engines. The Martin company submitted the Model 223. It was awarded contract for two prototypes which designated ...	Aircraft kits (resin)	Catalogue	£77.99	2
Anigrand Craftwork ANIG4046	1:144	Convair XB-46. Includes BONUS kits of the North-American B-45A Panavia Tornado, Northrop F-89B Scorpion and Ryan XV-5A Vertifan. In 1944, with the success of the German jet bomber Arado Ar-234, U.S. war department was aware of aviation advance in the enemy. So a requirement for a new design of the jet bomber which tactical radius could cover 1000-miles was issued. Convair (Consolidated Vultee Aircraft) submitted the Model 109 ...	Aircraft kits (resin)	Catalogue	£77.99	2

Anigrand Craftwork ANIG2046	1:72	Convair XB-46. In 1944, with the success of the German jet bomber Ar-234, U.S. war department was aware of aviation advance in the enemy. So a requirement for a new design of the jet bomber which tactical radius could cover 1000-miles was issued. Convair (Consolidated Vultee Aircraft) submitted the Model 109 mockup. It was approved and awarded contract for three prototypes which designated XB-46. Other designs in the competi...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG2074	1:72	Convair XA-41. In 1942, USAAF requested for a single-seat dive bomber design that powered by the new Pratt & Whitney XR4360 engine. The Vultee proposed their Model 90, and was awarded a contract for two prototypes, designated XA-41. After a mockup inspected in March 1943, the USAAF decided that it no longer needed dive bombers and changed the contract for a low-level ground attack aircraft instead. By this time, Vultee had mer...	Aircraft kits (resin)	Catalogue	£47.99	1
Anigrand Craftwork ANIG4063	1:144	Convair R3Y-2 Tradewind Gas station on the sea. Includes BONUS aircraft of the Convair XFY-1 Pogo, Bell XHSL-1 and Vought XF7U-1 Cutlass. In 1944, the U.S. Navy asked the industries to enter a design competition for a 105,000 pound patrol boat powered by four radials. At the end of the war, two German Bv.222 flying boats were captured by US forces. Convair acquired one for evaluation at Naval Air Station, the intensive studies... Anigrand Craftwork ANIG4081	1:144	Convair R3Y-1 Tradewind flying boat. Includes these bonus kits Kaman SH-2 Seasprite, DeHavilland U-6A Beaver and North-American XA2J-1 Super Savage. In 1944, the U.S. Navy asked the industries to enter a design competition for a 105,000 pound patrol boat powered by four radials. At the end of the war, two German Bv.222 flying boats were captured by US forces. Convair acquired one for evaluation at Naval Air Station, the inten...	Aircraft kits (resin)	Catalogue	£87.99	1

Anigrand Craftwork ANIG2065	1:72	Convair Atlas-A/-B/-D/X-11/X-12/XB-65/SM-65 B/CGM-16D 1st ICBM. In October 1945, U.S. Army issued supersonic missile requirement to the industries which received many military missiles technical papers from Nazi Germany. In 1946, Convair submitted several proposals and was received funding for the MX-774 rocket study. In 1949, Soviet detonated its first nuclear weapon, U.S.A.F. gave highest priority to Convair to develop a more...	Space kits (resin)	Catalogue	£57.99	1
Anigrand Craftwork ANIG4025	1:144	Consolidated PB2Y-5/R Coronado. ALSO includes free of the Curtiss XF15C-1, Martin XTBM-1 Mauler and Grumman XF5F-1 Skyrocket. In 1935, the U.S. Navy request for the development of a new patrol bomber larger than the Consolidated PBV Catalina that would have increased performance and weapon load capability. Consolidated and Sikorsky submitted proposal which received order for two prototypes as the XPB2Y-1 and XPBS-1. Both the p...	Aircraft kits (resin)	Catalogue	£77.99	2
Anigrand Craftwork ANIG2083	1:72	Consolidated B-32 Dominator. In 1939, the USAAF issued requirement for a Super bomber which could operate at high-speed, long-range, more bomb load and more defensive armament than the existing Boeing B-17 Flying Fortress and Consolidated B-24. In 1940, the Army issued contracts for preliminary design to four major aircraft companies, which were designated as Boeing XB-29, Lockheed XB-30, Douglas XB-31 and Consolidated XB-32. ...	Aircraft kits (resin)	Catalogue	£117.99	0
Anigrand Craftwork ANIG4032	1:144	Consolidated B-32 Dominator. Also includes BONUS kits of the McDonnell XP-67 Bat, Hughes XA-37 and North-American XB-28 Dragon. In 1939, the USAAC issued requirements for a Super Bomber which could operate at high-speed, long-range, more bomb load, and more defensive armament than the existing Boeing B-17 Flying Fortress and B-24. In 1940, the Army issued contracts for preliminary design to four major aircraft companies, which...	Aircraft kits (resin)	Catalogue	£87.99	2

Anigrand Craftwork ANIG2134	1:72	Columbia XJL-1 flying boat. In June 1939, Grumman intended to update their J2F Duck biplane to an all-metal monoplane as a replacement for the United States Navy. The aircraft was assigned the G-42. However due to increased production pressures for other Grumman fighter aircraft, the project of prototype and test was turned over to the Columbia Aircraft Company which was already under a production contract for J2F-6 Ducks. Thr...	Aircraft kits (resin)	Catalogue	£77.99	1
Anigrand Craftwork ANIG3007	1:144	Century Fighters Special set. Republic XF-103 Thunderwarrior / North-American YF-107A Ultra Sabre / North-American XF-108 Rapier / Bell XF-109 McDonnell / F-110A (McDonnell F-4C) Spectre	Aircraft kits (resin)	Catalogue	£77.99	2
Anigrand Craftwork ANIG4093	1:144	Budd RB-1/C-93 Conestoga The first stainless steel cargo airplane (includes these BONUS kits Sikorsky R-8B Hoverfly, Bowlus XCG=8 and Stearman-Hammond JH-1). In 1941, the U.S. War Department required for a twin-engine transport comparable in performance to the Douglas C-47, to be constructed of "non-strategic materials". At the time, U.S. government feared that the thousands of new aircraft needed for the war effort might crea...	Aircraft kits (resin)	Catalogue	£77.99	2
Anigrand Craftwork ANIG2128	1:72	Budd C-93/RB-1 Conestoga. In 1941, the U.S. War Department required for a twin-engine transport comparable in performance to the Douglas C-47, to be constructed of "non-strategic materials". At the time, U.S. government feared that the thousands of new aircraft needed for the war effort might create shortages of aluminum alloys. Sprang from this requirement, the Curtiss C-76 and Fairchild C-82 were to be constructed of wood. A...	Aircraft kits (resin)	Catalogue	£98.69	2

Anigrand Craftwork ANIG4076	1:144	Breguet Br.765 Sahara Military freighter version of Deux-Ponts Includes BONUS kits of the Leduc 0.22, Dassault Mirage G8.01 and Sub-Ouest S.O.4000. In 1944, Luftwaffe issued an requirement to aviation industries for a heavy transport airplane as a prospective replacement for the Messerschmitt Me.322 Gigant. Breguet submitted the Br.760 proposal, and a design study have been undertaken. Development was delayed due to war situa...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG2086	1:72	Boeing YUH-61. In 1965, the U.S. Army launched the Utility Tactical Transport Aircraft System (UTTAS) program. The initial specification called for an aircraft able to carry a crew of three and eleven troops with the main goal of replacing the Bell UH-1 Huey. Requests for proposals were issued to the industries in 1972. All the designs proposed in response to the specification were required to use two G.E. turboshaft engines a...	Aircraft kits (resin)	Catalogue	£57.99	2
Anigrand Craftwork ANIG4104	1:144	Boeing YC-14 STOL prototype to replace the C-130 Hercules. (includes these BONUS kits Bell X-16, McCulloch YH-30 and Lockheed YO-3A) In 1972, the U.S. Air Force issued the Advanced transport STOL transport program for a new medium airlifter that capable of operations into battle zones with short, temporary airfields. Two proposals were accepted for construction as the Boeing YC-14 and McDonnell-Douglas YC-15 prototypes. The Bo...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG2100	1:72	Boeing YC-14 Advanced medium STOL transport. In 1972, the U.S. Air Force issued the Advanced transport STOL transport program for a new medium airlifter that capable of operations into battle zones with short, temporary airfields. Two proposals were accepted for construction as the Boeing YC-14 and McDonnell-Douglas YC-15 prototypes. The Boeing design for STOL performance was based on the use of a supercritical wing, developed...	Aircraft kits (resin)	Catalogue	£147.99	2

Anigrand Craftwork ANIG4079	1:144	Boeing YAL-1A The Airborne Laser Test Bed. Includes bonus kits of the Bede BD-5 / Pilatus UV-20A Chiricahua / Northrop Tacit Blue. In 1996, the U.S. Air Force launched the Airborne Laser program for the destruction of tactical theatre ballistic missiles. The Department of Defense awarded Boeing for the program management, systems integration, battle management system and modification of the 747-400F aircraft. Northrop Grumman ...	Aircraft kits (resin)	Catalogue	£117.99	1
Anigrand Craftwork ANIG4062	1:144	Boeing XCH-62 HLH Heavy lift helicopter program. Includes BONUS aircraft of the Sikorsky CH-54A Skycrane, Fairchild VZ-5 Fledgling and Cessna YH-41 Seneca. In 1967, the Soviet Mil V-12 helicopter made its first lift-off successfully. The U.S. military had an urge to match or top this heavy-lift helicopter. In early 1970, a joint Army and Navy working committee was formed to study the development of a heavy lift helicopter. The...	Aircraft kits (resin)	Catalogue	£87.99	1
Anigrand Craftwork ANIG4059	1:144	Boeing XB-59 Alternation of the Convair B-58 Hustler. Includes bonus kits of North-American X-15, XF-91 Thunderceptor & T-28 Trojan. In May 1947, the U.S. War Department issued a requirement to the industries for a new jet-powered supersonic bomber that would be ready for service by the late 1950s. A number of contractors submitted bids. The USAF chose Convair XB-58 and Boeing XB-59 to proceed with a Phase-I study. The basic X...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG4055	1:144	Boeing XB-55 B-47 Stratojet propeller-driven version. Includes BONUS kits of the Bell XV-3, Grumman XF12F Lion and Douglas XF5D Skylancer. In October 1947, the USAF announced the medium swept-wing bomber program with plans essentially using the new Allison T40-A2 turboprop engines design. It was estimated to give the new bomber a top speed of 490 mph. Boeing submitted the Model-474 design that was started as a replacement for t...	Aircraft kits (resin)	Catalogue	£87.99	2

Anigrand Craftwork ANIG4015	1:144	Boeing XB-15 Super Flying Fortress. Also includes BONUS kits of the Vought OS2U-3 Kingfisher, Bell XFM-1 Airacuda, Bell XP-52. In 1933, the U.S. Material Division at Wright field began a study for a modern bomber that would able to carry 2000 lb bomb load form 5000 miles and 200mph. This specification was then submitted to the War Department as 'Project-A' and received tentative approval. In 1934, the USAAC began contract nego...	Aircraft kits (resin)	Catalogue	£87.99	2
Anigrand Craftwork ANIG2077	1:72	Boeing X-20 Dyna Soar. In 1945, millions of German military documents were confiscated by USAAF. One of the concept was the Sanger aerospace bomber. During post-war years, Bell was selected for the study on space-craft, and named BoMi. In 1956, the Air Force channeled Bell's development to a reconnaissance, bombardment vehicle. A competition for a glider prototype was opened. In 1959, Boeing won the competition, and was contra...	Aircraft kits (resin)	Catalogue	£47.99	1
Anigrand Craftwork ANIG2098	1:72	Boeing C-98 Clipper Allied leaders designate flight. In 1936, Pan Am requested for a flying boat with capability that could fly across the ocean. Boeing's bid of Model 314 Clipper was successful. Pan Am signed a contract for six Clippers. Boeing engineers used the wings of the cancelled XB-15 bomber on the flying boat body. The installation of new Wright Cyclone engines eliminated the lack of power that handicapped the XB-15. ...	Aircraft kits (resin)	Catalogue	£147.99	1
Anigrand Craftwork ANIG4075	1:144	Boeing C-75 Stratoliner. Includes bonus kits of the Northrop A-17 Nomad / Kellett YO-60 / Ryan XF2R-1 Darkshark. In 1937, Boeing designed a four-engined Model 307 airliner based on its B-17C heavy bomber to operate at altitudes of 20,000 ft. Boeing built ten Stratoliners but production stopped at the onset of war in 1940. At the time the U.S. entered World War II, the U.S. Military required for the long-range transport aircraf...	Aircraft kits (resin)	Catalogue	£77.99	2

Anigrand Craftwork ANIG4054	1:144	Boeing B-54A Ultrafortress. Includes BONUS kits of the Northrop YF-17 Cobra, Douglas XF6D Missileer and McDonnell XHJD Whirlaway. Final variation of Boeing B-29A Superfortress. In 1947, after the first production of B-50A made its first flight, many problems of the old B-29 configuration were identified. The USAF decided to reconfigure all the B-50Bs and further. An early B-50A was set aside to serve as a prototype for YB-50C....	Aircraft kits (resin)	Catalogue	£87.99	2
