Miles began the design of a large transport aeroplane, the X.2, intended to have the maximum degree of aerodynamic cleanness obtainable. To this end the fuselage was made wide and shallow so that it merged almost imperceptibly into the wing which was fitted with large root fillets. Miles submitted it to the Air Ministry. However the Air Ministry were not interested in civil aircraft or in rese... | Aircraft kits<br>(resin) | Catalogue            | £48.33  | 0 |

| Unicraft<br>UNI72133 | 1:72 | Airspeed AS.31 - Totally Weird British 1935 Fighter Project. At the end of 1935 Airspeed was invited to tender for a high speed fighter to specification F35/35. The firm submitted a highly unconventional design with a pilot egg-shaped nacelle positioned behind the machine itself. The main reason for such layout was giving the pilot extremely good view in the air and on landing approach in particular. The well proven 745hp Kest...     | Aircraft kits<br>(resin) | Catalogue            | £21.92 | 1 |
| Unicraft<br>UNI72134 | 1:72 | Arsenal VG.60 French late war advanced fighter. The VG60 is the latest draft of propeller fighter from the engineer Galtier, wonderful father to VG33-39 of 1940. The study was begun in 1940 and taken over by the Germans during the years of occupation. Finally it was proposed in May 1945 with a German engine, the Jumo 213 E junker 1750 CV. Significantly larger than its predecessors, it retained the general appearance and the ae...     | Aircraft kits<br>(resin) | Catalogue            | £27.83 | 1 |
