Armourfast ARM99003	1:72	Pz.Kpfw.III Medium Tank: Pack includes 2 snap together tank kits. The Pz.Kpfw.III, which was known more commonly as the Pz.Kpfw.III, was developed during the 1930s and used extensively in World War II. It was originally designed to fight other armoured fighting vehicles, fighting beside the infantry-support Pzkw IV. By 1942, it was largely obsolete in this role and was replaced by the up-gunned Pz.Kpfw.IV, though some would co...	Military vehicle kits (injection)	Second Hand	£8.32	2

Armourfast ARM99023	1:72	Stuh 42: Pack includes 2 snap together tank kits. The Sturmgeschutz/StuG.III series of combat vehicles was based on the lower hull of the Pz.Kpfw.III and featured a fixed upper superstructure. The design of the Sturmgeschutz/StuG allowed it to be quickly upgraded with the 7.5cm L/43 and shortly thereafter the excellent 7.5cm StuK40 L/48 which turned it into one of the best tank killers of the war. Since the roll of the Sturmge...	Military vehicle kits (injection)	Second Hand	£8.32	4

Armourfast ARM99028	1:72	Pz.Kpfw.IV Ausf.D: Pack includes 2 snap together tank kits. The Pz.Kpfw.IV is normally described as having been the mainstay of the German tank forces during the Second World War, but that is actually somewhat misleading. While it is true that the Pz.Kpfw.IV was the only German tank to remain in production for the entire duration of the war, for the first three of those years it was a close support weapon produced in relative... Armourfast ARM99030	1:72	Valentine Mk.II: Pack includes 2 snap together tank kits. The Valentine tank was produced in the United Kingdom (and Canada under license) during the Second World War. More than 8,000 of the type were produced in 11 different marks plus various purpose-built variants, accounting for approximately a quarter of wartime British tank production. Used by British & Commonwealth forces, it also saw service in the Soviet army. Perh...	Military vehicle kits (injection)	Second Hand	£8.32	1
